

Solving biofouling issues is our motivation and expertise at H₂O Biofouling Solutions. With over 30 years of experience, we provide eco-friendly, cost-effective solutions tailored for the power, oil and gas, and desalination sectors.

Our approach helps you **PREDICT, PREVENT,** and **CONTROL biofouling**, ensuring guaranteed system reliability and full regulatory compliance.

Predict, Prevent, Control

BIOFOULING

Committed to providing sustainable and eco-friendly solutions for biofouling prevention and control across industrial sectors.

Only H₂O BFS offers a complete solution for biofouling control. Beneficial for new and existing (cooling) water systems.
